We are happy to announce that The Grove of Northbrook is transitioning from Phase 1 to Phase 2 of the Reopening Plan for Skilled Nursing Facilities.

The Illinois Department of Public Health and Centers for Medicare & Medicaid Services have recently released guidance for Skilled Nursing Facilities to follow regarding COVID-19 and re-introducing group activities and visitation. Under this new guidance there are three different "Phases" that a Skilled Nursing Facility can be categorized as. Each Phase has their own set of recommendations and stringencies regarding group activities and visitation depending on the status of the facility and its community.

Under Phase 2, indoor visitation continues to be unavailable, however, outdoor visitations is possible with the required guidelines in place, and we may now commence limited and modified group dining and group activities at our facility. For further details, please feel free to reach out to the facility at 847-564-0505.

Please note, the phase-level is subject to change based on a variety of factors, including possible new guidance and recommendations. In the event of a change in Phase, we will update accordingly.
